LeetCode : HarshCodesX

SKILLS SUMMARY

- **Languages:** C++, JavaScript, TypeScript, C#, Python
- **Web Technologies:** Node.js, React.js, Express.js, HTML5, CSS3, Nextjs
- **Cloud & DevOps:** Linux, Networking, AWS (EC2, S3, Lambda), CI/CD (basics)
- **Tools:** Git, GitHub, Postman
- **Database:** MySQL, MongoDB
- **AI:** Prompt Engineering, RAG, AI Agents, OpenAI API, LangChain, Python, FastAPI
- **Soft Skills:** Strong communication skills, Leadership, Teamwork, Flexibility, Active listening, Time management, Problem-solving, Decision-making

EXPERIENCE

- **Software Engineer** Hyderabad, India
May 2025 - Current
Stackular
 - **Legacy System Modernization:** Modernizing a large-scale legacy application by rewriting backend modules using ASP.NET Core Web API, improving performance, security, and maintainability.
 - **REST API Development & Optimization:** Developed and optimized REST APIs using C#, .NET Core, SQL Server, and Entity Framework, improving data processing speed and reducing API response time.
 - **Frontend Development (React.js):** Built interactive and responsive UI screens using React.js, significantly improving user experience and reducing page load time.
 - **Cloudflare Integration for Media Delivery:** Enhanced website performance by integrating Cloudflare for images, videos, and static content delivery, reducing global latency and improving load speeds.
 - **Security, Authentication & Code Quality:** Integrated secure authentication workflows, strengthened code quality, and followed best practices including clean architecture, reusable components, and structured logging.
 - **Presence Monitoring App Development:** Collaborated with a team to develop an internal Presence App that tracks real-time employee activity and status.
- **Frontend Developer Intern** Noida, Uttar Pradesh
June 2024 - April 2025
Azeosoft
 - **Frontend Development for Client Projects:** Worked on multiple client-facing web applications, building responsive and user-friendly interfaces using modern frontend technologies.
 - **Payment and Transaction Interfaces:** Developed and enhanced payment-related user flows, ensuring smooth UI interactions, form validation, and seamless user experience across devices.
 - **Reusable UI Components:** Designed and implemented reusable UI components to maintain consistency and reduce development time across multiple client projects.
 - **Performance and UI Optimization:** Optimized frontend performance by improving component rendering and reducing unnecessary re-renders, leading to faster load times and improved user experience.
 - **Collaboration in a Startup Environment:** Collaborated closely with designers and backend developers in a fast-paced startup environment, translating client requirements into functional and visually appealing interfaces.

PROJECTS

- **Connecto (React, Node.js, Express.js, MongoDB) GitHub Repo :** : Developed Connecto, a full-stack social media application using the MERN stack with user authentication, real-time chat, and multi-provider sign-in features. Implemented secure authentication flows with Clerk and optimized client state management using Redux. Enhanced responsiveness and real-time interactivity through Socket.io for seamless messaging and live updates, resulting in improved user engagement across the application.
- **URL Shortener (Node.js, Express.js, MongoDB) GitHub :** : Developed a backend-focused URL shortening application using Node.js and Express.js, following clean code principles and a modular project structure for better readability and maintainability. Implemented RESTful APIs for generating and resolving shortened URLs, along with database persistence using MongoDB. Emphasized separation of concerns, meaningful naming conventions, and reusable utility functions to ensure scalable and easy-to-maintain code.

EDUCATION

- **Chandigarh Univerisy, Mohali** Mohali, India
July 2020 - May 2024
Bachelor of Technology - Computer Scient Engineering CGPA: 7.35

HIGHLIGHTS

- Frontend Developer – Effectus (College Technical Club) : Built and enhanced responsive user interfaces for club initiatives, focusing on clean UI implementation.
- Key contributor in the Coding Club, actively participating in coding sessions, peer learning, and technical problem-solving activities.
- Recognized for consistent performance and active participation in technical workshops and coding events conducted at the college level.
